Subject index

Adsorption
A study of the adsorption of aromatic sulphonate anions at the gold (210) single-crystal electrode (Skołuda, Dutkiewicz) 233
On the adsorption and electrochemical oxidation of DNA at glassy carbon electrodes (Brett et al.) 225
On the simultaneous evaluation of charge transfer kinetics and adsorption: reduction of parabanic acid in low acidity xM HCl + $(2-x)$M LiCl mixtures (Calvente et al.) 105
Structure influence on electrocatalysis and adsorption of intermediates in the anodic O_2 evolution at dimorphic α- and β-PbO_2 (Ho et al.) 147
Surface and interfacial behaviour of isomeric butanediols (Zagórska et al.) 211
Anodic O_2 evolution
Structure influence on electrocatalysis and adsorption of intermediates in the anodic O_2 evolution at dimorphic α- and β-PbO_2 (Ho et al.) 147
Anomalous stability
Anomalous stability of acid-grown hydrous platinum oxide films in aqueous media (Burke, Buckley) 239
Aromatic sulphonate anions
A study of the adsorption of aromatic sulphonate anions at the gold (210) single-crystal electrode (Skołuda, Dutkiewicz) 233
Au(210) electrode
A study of the adsorption of aromatic sulphonate anions at the gold (210) single-crystal electrode (Skołuda, Dutkiewicz) 233
Au(111) electrode
Investigations of SO_4^{2-} adsorption at the Au(111) electrode by chronocoulometry and radiochemistry (Shi et al.) 317
Automated flow system
Determination of charge transfer kinetic parameters using an automated flow system (Mahoney et al.) 81

Benkeser reduction
The reduction of substituted benzylamines by means of electrochemically generated solvated electrons in LiCl + methylamine (Van Andel-Scheffer et al.) 135
Benzene
Studies of solvated electrons in LiBr + HMPA solutions using the rotating ring–disk electrode technique. Part 2. The reaction of benzene with solvated electrons (Van Andel-Scheffer et al.) 143

Charge density
Investigations of SO_4^{2-} adsorption at the Au(111) electrode by chronocoulometry and radiochemistry (Shi et al.) 317
Charge transfer kinetic parameters
Determination of charge transfer kinetic parameters using an automated flow system (Mahoney et al.) 81
Charge Transfer Kinetics
On the simultaneous evaluation of charge transfer kinetics and adsorption: reduction of parabanic acid in low acidity xM HCl + $(2-x)$M LiCl mixtures (Calvente et al.) 105
Colloids
Impedance spectroscopy of colloids (Kijlstra et al.) 37
Compact layers
Growth of compact layers at the interface. Part 7. Multilayers of β-cyclodextrin in aqueous solutions (Pospíšil, Švestka) 295
Computer simulations
Growth and decay of metal clusters on surfaces (Schmickler, Stimming) 203
Condensation
Hydrogen bonding and two-dimensional condensation in uracils (De Levie, Wandlowski) 265
Corrosion
Effect of the absorption of hydrogen by nickel on its anodic dissolution and corrosion in acidic solutions (Skuratnik et al.) 311
Current efficiency
The reduction of substituted benzylamines by means of electrochemically generated solvated electrons in LiCl + methylamine (Van Andel-Scheffer et al.) 135
β-Cyclodextrin
Growth of compact layers at the interface. Part 7. Multilayers of β-cyclodextrin in aqueous solutions (Pospíšil, Švestka) 295

Demodulation voltammetry
Influence of low frequency in demodulation voltammetry: an experimental study (Bravo et al.) 75
Diffusion
Diffusion kinetics at fractal electrodes (Pajkossy et al.) 69
Diffusion-migration capacitance
Diffusion-migration capacitance in homogeneous membranes, modified electrodes and thin-layer cells (Buck et al.) 55
Dimethylformamide
Double-layer effects on the electroreduction of lead(II) at mercury in dimethylformamide solutions (Fawcett, Yee) 219
DNA
On the adsorption and electrochemical oxidation of DNA at glassy carbon electrodes (Brett et al.) 225
Double-layer structure models
Use of the Grahame and Grahame–Parsons concepts for modelling the impedance behaviour of a metal electrode in a solution of its salt (Grafov, Damaskin) 29

Electrocatalysis
Anomalous stability of acid-grown hydrous platinum oxide films in aqueous media (Burke, Buckley) 239
Electrodeposition and electrocatalysis: the deposition and dissolution of single catalyst centres (Fleischmann et al.) 171
Structure influence on electrocatalysis and adsorption of intermediates in the anodic O_2 evolution at dimorphic α- and β-PbO_2 (Ho et al.) 147
Electrochemical impedance
Use of the Grahame and Grahame–Parsons concepts for mod-

elling the impedance behaviour of a metal electrode in a solution of its salt (Grafov, Damaskin) 29
Electrochemical oxidation
On the adsorption and electrochemical oxidation of DNA at glassy carbon electrodes (Brett et al.) 225
Electrochemical phase formation
Electrochemical phase formation involving multicomponents: hemispherical overlap models for varied nucleation and growth conditions (Bhattacharjee, Rangarajan) 271
Electrocrystallization reactions
Electrodeposition and electrocatalysis: the deposition and dissolution of single catalyst centres (Fleischmann et al.) 171
Electrode kinetics
Investigation of the influence of residual uncompensated resistance and incomplete charging current correction on the calculation of electrode kinetics when global and convolution analysis methods are used (Bond et al.) 15
Electrodeposition
Electrodeposition and electrocatalysis: the deposition and dissolution of single catalyst centres (Fleischmann et al.) 171
Electroreduction
Double-layer effects on the electroreduction of lead(II) at mercury in dimethylformamide solutions (Fawcett, Yee) 219
Essin–Markov coefficients
Investigations of SO_4^{2-} adsorption at the Au(111) electrode by chronocoulometry and radiochemistry (Shi et al.) 317
Eu(III)/Eu(II) system
Electrode processes of the Eu(III)/Eu(II) system in acetone + dimethylformamide mixtures (Kišová et al.) 93

Fractal electrodes
Diffusion kinetics at fractal electrodes (Pajkossy et al.) 69
Functional groups
Surface and interfacial behaviour of isomeric butanediols (Zagórska et al.) 211

Gibbs excesses
Investigations of SO_4^{2-} adsorption at the Au(111) electrode by chronocoulometry and radiochemistry (Shi et al.) 317
Glassy carbon electrodes
On the adsorption and electrochemical oxidation of DNA at glassy carbon electrodes (Brett et al.) 225

Hemispherical overlap models
Electrochemical phase formation involving multicomponents: hemispherical overlap models for varied nucleation and growth conditions (Bhattacharjee, Rangarajan) 271
Hg–solution interface
Surface and interfacial behaviour of isomeric butanediols (Zagórska et al.) 211
Homogeneous membranes
Diffusion-migration capacitance in homogeneous membranes, modified electrodes and thin-layer cells (Buck et al.) 55
Hydrogen absorption
Effect of the absorption of hydrogen by nickel on its anodic dissolution and corrosion in acidic solutions (Skuratnik et al.) 311
Hydrogen bonding
Hydrogen bonding and two-dimensional condensation in uracils (De Levie, Wandlowski) 265
Hydrons platinum oxide
Anomalous stability of acid-grown hydrous platinum oxide films in aqueous media (Burke, Buckley) 239

Impedance analysis
Impedance analysis of the reduction of pyrimidine at a dropping mercury electrode. Part I: Sequential mechanisms (Navarro et al.) 127
Impedance spectroscopy
Impedance spectroscopy of colloids (Kijlstra et al.) 37
Incomplete charging current correction
Investigation of the influence of residual uncompensated resistance and incomplete charging current correction on the calculation of electrode kinetics when global and convolution analysis methods are used (Bond et al.) 15
Interfacial behaviour
Growth of compact layers at the interface. Part 7. Multilayers of β-cyclodextrin in aqueous solutions (Pospíšil, Švestka) 295
Interfacial phases
On the role of surface active agents in the nucleation step of metal electrodeposition on a foreign substrate (Michailova et al.) 195
Isomeric butanediol
Surface and interfacial behaviour of isomeric butanediols (Zagórska et al.) 211

Layer deposition
Layer by layer deposition (Abyaneh) 191
Lead–acid batteries
Structure influence on electrocatalysis and adsorption of intermediates in the anodic O_2 evolution at dimorphic α- and β-PbO_2 (Ho et al.) 147
LiBr + HMPA solutions
Studies of solvated electrons in LiBr + HMPA solutions using the rotating ring–disk electrode technique. Part 2. The reaction of benzene with solvated electrons (Van Andel-Scheffer et al.) 143
Low frequency
Influence of low frequency in demodulation voltammetry: an experimental study (Bravo et al.) 75

Manganese complexes
Kinetics of the $[Mn(CN)_6]^{4-} + e^- \rightleftharpoons [Mn(CN)_6]^{5-}$ reaction at mercury electrodes (Orlik, Galus) 97
Mathematical models
Electrodeposition and electrocatalysis: the deposition and dissolution of single catalyst centres (Fleischmann et al.) 171
Mercury electrodes
Kinetics of the $[Mn(CN)_6]^{4-} + e^- \rightleftharpoons [Mn(CN)_6]^{5-}$ reaction at mercury electrodes (Orlik, Galus) 97
Metal clusters
Growth and decay of metal clusters on surfaces (Schmickler, Stimming) 203
Metal electrode
Use of the Grahame and Grahame–Parsons concepts for modelling the impedance behaviour of a metal electrode in a solution of its salt (Grafov, Damaskin) 29
Metal Electrodeposition
On the role of surface active agents in the nucleation step of metal electrodeposition on a foreign substrate (Michailova et al.) 195
Modified electrodes
Diffusion-migration capacitance in homogeneous membranes, modified electrodes and thin-layer cells (Buck et al.) 55
Molecular structure effects
A study of the adsorption of aromatic sulphonate anions at the gold (210) single-crystal electrode (Skołuda, Dutkiewicz) 233

Nickel
Effect of the absorption of hydrogen by nickel on its anodic dissolution and corrosion in acidic solutions (Skuratnik et al.) 311

Nucleation
On the role of surface active agents in the nucleation step of metal electrodeposition on a foreign substrate (Michailova et al.) 195
Nucleation and growth
Electrochemical phase formation involving multicomponents: hemispherical overlap models for varied nucleation and growth conditions (Bhattacharjee, Rangarajan) 271
Electrodeposition and electrocatalysis: the deposition and dissolution of single catalyst centres (Fleischmann et al.) 171
Growth of compact layers at the interface. Part 7. Multilayers of β-cyclodextrin in aqueous solutions (Pospíšil, Švestka) 295

Oxide films
An investigation of oxide films on platinum in sulphuric acid solution by electrochemical and photoelectrochemical techniques (Rudge et al.) 253

Parabanic Acid
On the simultaneous evaluation of charge transfer kinetics and adsorption: reduction of parabanic acid in low acidity xM HCl + $(2-x)$M LiCl mixtures (Calvente et al.) 105
PbO_2
Structure influence on electrocatalysis and adsorption of intermediates in the anodic O_2 evolution at dimorphic α- and β-PbO_2 (Ho et al.) 147
Percolation model
Permeation of fluids in porous/particulate electrodes: a percolation model (Bosco) 43
Permeation of fluids
Permeation of fluids in porous/particulate electrodes: a percolation model (Bosco) 43
Photoactivity
An investigation of oxide films on platinum in sulphuric acid solution by electrochemical and photoelectrochemical techniques (Rudge et al.) 253
Platinum
An investigation of oxide films on platinum in sulphuric acid solution by electrochemical and photoelectrochemical techniques (Rudge et al.) 253
Porous/particulate electrodes
Permeation of fluids in porous/particulate electrodes: a percolation model (Bosco) 43
Pyrimidine
Impedance analysis of the reduction of pyrimidine at a dropping mercury electrode. Part I: Sequential mechanisms (Navarro et al.) 127

Reaction kinetics
Kinetics of the $[Mn(CN)_6]^{4-} + e^- \rightleftharpoons [Mn(CN)_6]^{5-}$ reaction at mercury electrodes (Orlik, Galus) 97
Residual uncompensated resistance
Investigation of the influence of residual uncompensated resistance and incomplete charging current correction on the calculation of electrode kinetics when global and convolution analysis methods are used (Bond et al.) 15
Rotating ring–disk electrode
Studies of solvated electrons in LiBr + HMPA solutions using the rotating ring–disk electrode technique. Part 2. The reaction of benzene with solvated electrons (Van Andel-Scheffer et al.) 143

SO_4^{2-} adsorption
Investigations of SO_4^{2-} adsorption at the Au(111) electrode by chronocoulometry and radiochemistry (Shi et al.) 317
Solution surface
Surface and interfacial behaviour of isomeric butanediols (Zagórska et al.) 211
Solvated electrons
Studies of solvated electrons in LiBr + HMPA solutions using the rotating ring–disk electrode technique. Part 2. The reaction of benzene with solvated electrons (Van Andel-Scheffer et al.) 143
The reduction of substituted benzylamines by means of electrochemically generated solvated electrons in LiCl + methylamine (Van Andel-Scheffer et al.) 135
Statistical treatment
Layer by layer deposition (Abyaneh) 191
Substituted benzylamines
The reduction of substituted benzylamines by means of electrochemically generated solvated electrons in LiCl + methylamine (Van Andel-Scheffer et al.) 135
Sulphuric acid solution
An investigation of oxide films on platinum in sulphuric acid solution by electrochemical and photoelectrochemical techniques (Rudge et al.) 253
Surface active agents
On the role of surface active agents in the nucleation step of metal electrodeposition on a foreign substrate (Michailova et al.) 195
Surface potential
Surface and interfacial behaviour of isomeric butanediols (Zagórska et al.) 211
Surface reactions
Surface reactions at p-type and n-type ZnSe in aqueous solutions (De Wit, Kelly) 163
Surfactants
On the role of surface active agents in the nucleation step of metal electrodeposition on a foreign substrate (Michailova et al.) 195

Thin-layer cells
Diffusion-migration capacitance in homogeneous membranes, modified electrodes and thin-layer cells (Buck et al.) 55
Two-dimensional condensation
Multiple metastable states in the two-dimensional condensation of uridine at the mercury electrode (Scharfe, Buess-Herman) 303

Uracils
Hydrogen bonding and two-dimensional condensation in uracils (De Levie, Wandlowski) 265
Uridine
Multiple metastable states in the two-dimensional condensation of uridine at the mercury electrode (Scharfe, Buess-Herman) 303

ZnSe
Surface reactions at p-type and n-type ZnSe in aqueous solutions (De Wit, Kelly) 163
